It captures 8712 x 5813 effective pixels, delivering images with wide dynamic range and an incredible level of realism perfect for large-scale printing, fine art, significant crops and any number of other high-end applications.

Canon U.S.A., Inc. | High Resolution - 50.6 Megapixel Sensor

8K resolution refers to an image or display resolution with a width of approximately 8000 pixels. 8K UHD (7680 × 4320) is the highest resolution defined in the Rec. 2020 standard.. 8K display resolution is the successor to 4K resolution. TV manufacturers pushed to make 4K a new standard by 2017. At CES 2019, the first 8K TVs were unveiled.

8K resolution - Wikipedia

The best body cam should have a durable, compact design, good video resolution, and a long battery life so it doesn't need to be frequently recharged. Since body cameras are frequently used by outdoor adventurers, sports enthusiasts, and law enforcement, durability is particularly important and a waterproof and shock resistance rating is important to consider.
