The RRR is a further refinement of the very successfull RR model. The overall gear ratio has been changed to further optimize to keep the .12 engines in their powerband. The taller ratio moves the power band from low end acceleration to the mid range and top end performance. This allows the RRR to hook up off the turn and drive much easier.

As with other JCB machines, the engine in the 457 meets Tier 4 Final without the need for a costly diesel particulate filter (DPF). That is because the engine is designed to rely upon on an efficient combustion process that works together with a selective catalytic reduction (SCR) system and an exhaust fluid additive to meet the regulations.
